

Andermatt Canada Inc.

## Research Technician

**Location: Fredericton, New Brunswick**

Andermatt Canada Inc., located in Fredericton New Brunswick, is a member of the Andermatt Group which has headquarters in Switzerland. Family and employee owned, Andermatt has been developing biological solutions in agriculture for over 3 decades, rising to become recognized as a global leader in the biological segment. Andermatt Canada Inc., as a member of the Andermatt Group, is a leading production site for baculovirus products for the agricultural and forestry markets.

Our business is growing and we are looking for a Research Technician to join our team. The successful candidate will be responsible for the execution of the company's research needs including troubleshooting and quality control (i.e., meeting product and system standards). We are looking for a self-motivated and solution-oriented person with strong analytical and communication skills.

### **RESPONSIBILITIES:**

- Ensuring that Andermatt products meet QAQC requirements
- Carrying out routine tasks while accurately following strict methodologies
- Constructing, maintaining, and operating standard laboratory equipment (centrifuges, microscopes, pH meters, pipettes etc.)
- Assisting in all aspects of laboratory baculovirus production (insect rearing, diet preparation, virus production & packaging)
- Troubleshooting production issues
- Assisting in the development and production of new biological products
- Designing, recording, and interpreting research experiments

**REQUIREMENTS:** The successful candidate will possess the following:

- Minimum of 2 years of relevant research and/or laboratory experience
- A Bachelor's degree in biology, laboratory technology, or related field

An equivalent combination of education, training and experience may be considered.

**COMPETENCIES:** The successful candidate will possess the following competencies:

- Analytical Thinking/Judgment
- Initiative
- Teamwork and Cooperation
- Proficiency in MS Office (Word, Excel, PowerPoint, Outlook)
- Experience working with insects considered an asset
- Experience with Lean Six Sigma methodologies considered an asset

Salary: \$35,000 - \$41,600

**APPLY TO:** We encourage applicants to apply on-line, via email, at the following address by March 31, 2023, indicating competition number **ACA202302**.
